

DOMEL

FUNDAMENTAL PRINCIPLES

Our mission, vision and values are our pillars for achieving sustainable development.

MISSION

Domel is a socially and environmentally responsible company. As a global developer and supplier of advanced solutions in the field of electric drives and components based on our own innovative technologies, we enable growth and sustainable development for our customers, employees and owners. In this way, we provide high-quality employment opportunities for the wider region.

VISION

We are a leading global development partner in the area of state-of-the-art, energy-efficient electric drives and components. We transform everyday experiences with our sustainable drive solutions.

VALUES

Creativity and ambition
Responsibility and efficiency
Respect and cooperation
Concern for customers and employees
Loyalty
